In every dynamite-packed page, experts teach you through pictures and stories. How you can K.O. your enemy with one clean scientific wallop! How to master him with punishing, bruising, wrestling holds! How to use his strength to destroy himself through deadly Jiu-Jitsu.

Never again cringe or shy away from a scrap. Imagine the wonderful confidence when you know that you're nobody's slave, that nobody can push you around. Think of the respect others will have for you, the safety they'll feel being with you, when they find out what a rough, tough, scrapping, deadly-efficient hellion you can be.

You learn quickly and easily through our amazing new "slow-motion picture" method. You learn every stance, every hold, every grip as portrayed by our experts. It's just like getting personal instruction in your own home. And what's more, you don't pay the price of personal instruction. The experts who prepared these instructions want every red-blooded American to know how to defend himself. They want to make a "big man" of every small one. So the price of these books was made so low that everyone could afford to own them. Yes, you can't afford to be without them.

We want you to have all three books. We want you to be able to defend yourself against any attacker, no matter how he fights. Therefore, we'll send you all 3 books for the price of only 2.
